EDUCATION

Cullen College of Engineering, University of Houston
Master of Science (M.S.) in Cybersecurity; GPA: 4.0/4.0

Graduation: May 2027

Amity University, Mumbai
Bachelor of Technology (B.Tech.) in Computer Science Engineering; GPA: 3.3/4

Graduation: May 2025

PROFESSIONAL EXPERIENCE

Symmetrics Inc., Vienna, Virginia

June 2026 – Present

Cyber Security & Business Strategy Associate Intern

- Conducted controlled penetration testing, vulnerability assessments, and security validation activities to evaluate enterprise applications and secure access solutions under senior technical guidance.
- Researched AI-ready, quantum-secure encryption technologies, secure VPNs, authentication, SDKs, and key management while contributing to technical documentation and proof-of-concept development.
- Performed cybersecurity market research, competitor analysis, and product positioning to support business strategy, go-to-market planning, and cross-functional product launch initiatives.

University of Houston, Houston, Texas

Sept 2025 – May 2026

Teaching Assistant

Teaching Assistant for **Network Security – CIS 6325** at the University of Houston under Professor Tania Banerjee.

Responsibilities include mentoring graduate students, assisting with grading assignments and exams, and supporting instruction on secure network protocols, cryptography, firewalls, IDS and IPS, and network attack mitigation to strengthen both theoretical understanding and practical security skills.

Teaching Assistant for **Database Management Systems (DBMS) – CIS 4365** at the University of Houston under Professor Renjie Hu. Responsibilities include mentoring undergraduate students, evaluating assignments and exams, and guiding them in **ERD** and **SQL** to strengthen both theoretical and practical skills.

DeepCytes Cyber Labs UK, Mumbai, India

Feb 2025 – May 2025

Cyber Development Analyst Intern

Analyzed and documented system behaviors in Linux distributions (PureOS, Arch Linux), focusing on **Flatpak applications on Phosh** and GNOME configurations. This work enhanced my skills in **Linux systems, cybersecurity research, and technical documentation**, showcasing my ability to conduct detailed analysis and communicate complex findings clearly.

PROFESSIONAL CERTIFICATIONS & TRAININGS

- Certified Ethical Hacker (CEH v13) - EC-Council
- Google Cybersecurity Professional Certification
- Microsoft Certified - Azure AI Fundamentals
- Cisco – Introduction to Cybersecurity

TECHNICAL SKILLS

PROGRAMMING LANGUAGES: Python, C, C++, HTML, CSS, JavaScript, Kotlin, SQL

INFORMATION SECURITY: Vulnerability Scanning, Wireshark, Nmap, BurpSuite, ZAP OWASP

OPERATION SYSTEM: Kali Linux, Arch Linux, PureOS, Windows

EXTRACURRICULAR ACTIVITIES

CoogsForEnergy Hackathon 2026 – 1st Place Winner, developed an end-to-end solution for aligning Permian Basin natural gas quality with LNG export specifications, involving real dataset analysis and integrated treatment and digital strategies.

KPMG Hackathon 2024 – Participated in the Capture the Flag Event.

Cybersecurity Core Committee (Pioneer), Google Developers Group (2024–25) – Led initiatives and taught cybersecurity principles

Web Development Team, Google Developer Student Club (2022–23) - Contributed to projects enhancing online engagement.

Marketing Team, Technicia '22 – Amity University Mumbai Annual Fest - Contributed to promotional and outreach efforts.

Event Head, Technicia 2022 – Amity University Mumbai Annual Fest - Managed and coordinated event activities.

Gaming Head, Technicia 2024 – Amity University Mumbai Annual Fest - Led and organized gaming events.

Volunteer, NGO for underprivileged children – Dedicated 30 hours to education and community support.
